IN MEMORIAM
In memory of my mother, Mrs. Emmett M. Beard, who passed away one year ago, Nov. 4, 1960.
One long year today
My darling mother passed away,
Her presence is ever near me,
Her love remains with me yet,
She was the kind of a mother,
I loved and will never forget.

She never complained when things went wrong,
So God took her home in his loving arms.
—Sadly missed by her daughter,
(1tc) Mrs. A. R. Cyrus.

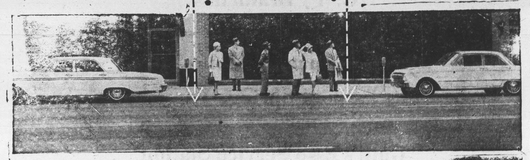
An all-new Ford . . .
right size . . . right price . . .
right between
Galaxie and Falcon



Some cars have new names...
this name will have a new car!

The name is familiar—the Ford Fairlane 500. The car itself is totally new—so new you'll see nothing else like it this year. It is one of Ford's milestone designs—and will be as influential in its way as the first mass-produced car (a Ford Model T), the first popular station wagon (a Ford Wagon), the first four-passenger luxury car (a Ford Thunderbird), the world's most successful compact (a Ford Falcon).

Right between Galaxie and Falcon in size and in price, the 1962 Ford Fairlane 500 is just the right car for just about everybody; you have never been able to buy anything so right before.

Big in room, ride and performance, it is still priced under most compacts. It comes a nickel as though it never existed to see another. It moves like a rabbit on roller skates.

● New unitized body a foot shorter outside . . . full-size inside

Ford engineers have changed the proportions of the automobile: a completely new unitized body gives you more room inside with less bulk outside. A foot shorter than previous Fairlanes, the new Fairlane 500 is pleasantly parkable, delightfully driveable, easily garageable. At the same time it packs into its neat and nifty 197 inches as much passenger room as you had in some of the biggest Fords ever built.

Twice-a-year maintenance

Service is reduced to a minimum—30,000 miles on many items, twice a year on the rest. You go 30,000 miles between major lubrications, 6,000 miles between oil changes and minor lubrications. You don't have to touch the engine coolant-antifreeze for two years—or 30,000 miles—at a time. Brakes adjust themselves.

All-new economy Eight from world's V-8 leader

The hand that honed the Thunderbird—and sped the Falcon to all-time Economy Run honors—turned to a new problem here, the world's first economy V-8. Made possible by new Ford foundry methods, the new Challenger V-8 is as strong as iron—and a lot lighter than iron's ever been before. As lively as you'd like . . . thriftier than you'd expect a V-8 to be . . . it's a natural powerplant for America's first eat-your-cake-and-have-it car.

For those who want even greater thrift, there's a new Fairlane Six. Its economy would be gratifying in a smaller car. In a car this size it's a downright delight.

Preview America's newest car now

As part of Preview Run U.S.A., new Fairlane 500's are riding the nation's highways and main streets right now. Watch for them. See what thousands have already seen—and raved about. Take a turn at the wheel—and perhaps do a little raving yourself.

We think you'll agree: this all-new Ford is just right for just about everybody. No matter how many new cars you've looked at, you haven't seen anything like this one. It will be at your Ford Dealer's next week. If you miss it now, be sure to see it then.

JUST RIGHT FOR JUST ABOUT EVERYBODY!
